PROJECTS

Simple Calculator — HTML, CSS, JavaScript

- Built a browser-based calculator using HTML, CSS, and JavaScript supporting core arithmetic operations (+, -, ×, ÷, %, +/–)
- Designed an intuitive button-based interface for smooth user interaction
- Applied JavaScript logic to handle real-time input parsing and calculation accuracy

Portfolio Website — HTML, CSS, JavaScript

- Designed and developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript to highlight technical skills and completed projects.
- Implemented navigation with dedicated Home, About, Projects, and Contact sections for smooth user experience.
- Integrated social media links and a contact section to facilitate professional networking.

Rock, Paper, Scissors Game — Java Programming

- Developed a Rock, Paper, Scissors game in Java, implementing game logic to compare user input against randomly generated computer choices.
- Applied conditional logic and control structures to determine win, lose, and draw outcomes accurately.
- Practiced core Java concepts including input handling, random number generation, and program flow control.
